Diamond cutting discs

Diamond cutting discs "Expert Universal"

- machine: angle grinders
- for reinforced concrete, granite, clinker, natural stone, pumice stone, marble, sand lime bricks, roofing tiles
- comfortable working
- high cutting performance, long lifetime
- very large cutting area
- high degree of safety through production "Made in Germany"
- 100% quality control before delivery
- according to EN 13236
- version: welded, segmented cutting edge
- cutting rate: max. 80 m/sec
- packaging: paperboard card

article no.	EAN 4006885...	description	Ø	bore	height of segment
8372000	...837201	1 diamond cutting disc "Expert Universal"	Ø 115 mm	Ø 22.2 mm	13 mm

6.14 Cutting/ roughing discs

Diamond cutting discs "Project Ceramic"

- machine: angle grinders
- for granite, fine stoneware, tiles, ceramic tiles
- finest, fast cuts
- effortless cutting
- according to EN 13236
- version: sintered, closed cutting edge, super thin (1.6 mm)
- cutting rate: max. 100 m/sec
- packaging: paperboard card

article no.	EAN 4006885...	description	Ø	bore	height of segment

6.15 Health and safety

Breathing protection

- **FFP1** masks afford protection against bothersome dust and smoke (solid particles), although the latter do not constitute a direct health hazard. The admissible maximum pollutant concentration is the four-fold MAK* value.
- **FFP2** masks afford protection against solid & liquid particles that are damaging to the health. The admissible maximum pollutant concentration is the 10-fold MAK* value.
- **FFP3** masks protect against toxic, solid & liquid particles as well as particles from carcinogenic and radioactive substances, spores, bacteria, viruses and enzymes. The admissible maximum pollutant concentration is the 30-fold MAK* value.
- **A1P2** filters protect against organic gas and vapour, as released from solvents, lacquers and glue, as well as against solid and liquid particles that are hazardous to health. The admissible maximum pollutant concentration is the 10-fold MAK* value.
- **ABEK** filters protect against organic and inorganic gas and vapour as well as acid gas, ammonia and organic ammonia derivatives. The admissible maximum pollutant concentration is the 30-fold MAK* value.

*The **MAK** value represents the maximum concentration of a substance in the (breathing) air at the workplace in the form of gas, vapour or suspended particles, which is not considered hazardous to the health, even if one is usually exposed to such concentration 8 hours a day and a maximum of 40 hours a week.

- protection against coarse non-toxic dust, as generated when removing rust, working with filler/cement or on brickwork etc.
- comfortable fit thanks to the mouldable nose piece and soft filter material
- special filter material for easy breathing
- according to DIN EN 149:2001+A1:2009

article no.	EAN	description	filter category	packaging
4831000	...483101	3 fine dust masks	FFP1	double blister on card

Ear protection

Capsular hearing protectors cover the entire pinna and are suitable if they have to be taken off and put on again frequently. Ear plugs are worn in the auditory canal and are recommended in cases of continuous noise. The single number rating (SNR value) refers to the mean attenuation of the sound level in decibel. The HML value indicate the specific insulation in high, middle and low frequencies.

Lightweight hearing protection for occasional use

- the height of the capsule can be easily adjusted
- according to DIN EN 352-1:2002
- packaging: double blister on card

article no.	EAN 4006885...	description	SNR value	HML values
4868000	...486805	1 ear defenders "Standard"	19 db	H 22 / M 15 / L 11 db

6.15 Health and safety

Professional hearing protection for using in extremely loud surroundings

- for working with a plate vibrator, a compressor or similar equipment
- the ergonomically shaped and stable headband provides highest comfort, even when worn over long hours
- size adjustable
- according to DIN EN 352-1:2002
- packaging: double blister on card

article no.	EAN	description	SNR value	HML values
4867000	4006885... ...486706	1 ear defenders "Profi"	24 db	H 29 / M 22 / L 13 db

foldable - space-saving storage

Foldable hearing protection for permanent using in loud surroundings

- size adjustable
- according to DIN EN 352-1:2002
- packaging: double blister on card

article no.	EAN	description	SNR value	HML values
4865000	4006885... ...486508	1 ear defenders "Compact"	26 db	H 33 / M 24 / L 14 db

Comfortable reusable plugs

- fins seal the ear passage, without exerting uncomfortable pressure
- according to DIN EN 352-2:2002
- material: soft, thermo-plastic
- packaging: double blister on card

article no.	EAN	description	SNR value	HML values
4866000	4006885... ...486607	1 pair of ear plugs	33 db	H 34 / M 30 / L 28 db

6.15 Health and safety

Comfortable reusable plugs with cord

- fins seal the ear passage, without exerting uncomfortable pressure
- with cord, for jobs with many interruptions
- according to DIN EN 352-2:2002
- material: soft, thermo-plastic
- packaging: double blister on card

article no.	EAN	description	SNR value	HML values
4872000	4006885... ...487208	1 pair of ear plugs	33 db	H 34 / M 30 / L 28 db

The inexpensive disposable ear plugs

- for extreme noisy conditions
- easily formed to fit perfectly into the ear passage
- according to DIN EN 352-2:2002
- packaging: double blister on card

article no.	EAN	description	SNR value	HML values
4874000	4006885... ...487406	4 pairs of ear plugs one-way	36 db	H 36 / M 34 / L 33 db

6.15 Health and safety

Head protection

- impact energy absorbing shape
- universal case for hearing protectors
- with drip rail
- roughened top area minimizes scratches
- easy size adjustment
- according to DIN EN 397:2005-05
- packaging: sticker

article no.	EAN	description	colour
4853000	...485303	1 protective helmet	yellow
4855000	...485501	1 protective helmet	white

Sporty baseball-style cap with shell inside as a means of impact protection

- to protect the head against bumps and abrasion on objects, equipments, wood, stone etc.
- for fields of application, where the legislator does not stipulate the use of a protective helmet pursuant to DIN EN 397, such as for gardening or for the interior finishing of houses
- according to DIN EN 812:2002
- packaging: sticker

article no.	EAN	description	colour
